PUBLIC HEARING

Ordinance Amendment – Chapter 10, Zoning, Section 10-61

An ordinance amending Chapter 10 entitled Zoning, Section 10-61 of the Code of the County of Montgomery, Virginia by amending the language defining the term “telecommunication tower, attached” by prohibiting the co-locating of telecommunication antennas on flag poles and private utility poles and by extending how high the antenna may extend above to twenty (20) feet.

The County Attorney summarized the proposed ordinance amendment. He explained the amendment is to help close the loop-hole for the placement of telecommunication antennas on flag poles and private utility poles. This amendment will prohibit the co-locating of telecommunication antennas on flag poles and private utility poles by-right and will require a special use permit approved by the Board of Supervisors. This ordinance also includes height of the antenna placed in order to comply with federal law.

Supervisor Tuck asked if these amendments will impact amateur radio equipment. The County Attorney replied that this will not impact amateur radio equipment. He did recommend that the Board may want the Planning Commission to review how the County Zoning Ordinance addresses Amateur Radio Towers and Antennas, and to initiate any proposed amendments to the Zoning Ordinance as to the use and placing of Amateur Radio Towers and Amateur Radio Antennas.

The County Attorney also recommended that the Board approve the proposed amendments after the public hearing if they so desire.

There being no speakers, the public hearing was closed.

PUBLIC ADDRESS

Marty Gordon addressed the Board on the following:

1. Eagle statue located at the old Courthouse: Requested that the Eagle be restored and moved to the new Courthouse.
2. New Animal Shelter: Mr. Gordon supports a new animal shelter being constructed. He urged the Board to proceed with moving the County garage to another location in order to get the ground prepared for a new animal shelter.
3. Surplus Property Sold: Expressed his appreciation to the Board in selling surplus property. He is glad these properties will be placed back on the tax rolls.

Jason Shelton with Friends of Animal Control and Care spoke in support of a new Animal Shelter in Montgomery County. Mr. Shelton stated there is a critical need for a new shelter.

There being no further speakers, the public address session was closed.

The County Administrator made a presentation to address issues on the Animal Shelter in Montgomery County. Montgomery County has discussed the need for a new animal shelter for several years. The existing animal shelter was built in 1976, with an addition added on in 1981, and is in dire need of replacement.

The County Administrator reported in the last four years Montgomery County has allocated \$178 million for new schools and \$29 million for a new courthouse and public safety building. He stated it is now time to address the need of allocating funds toward a new animal shelter. He believes the project cannot continue without the investment of funds. In 2010, the Board did allocate \$1 million to this project. He also expressed concern that the volunteers with the Friends of Animal Control and Care will no longer provide their services due to the conditions of the building and the lull in moving forward with a new shelter.

The County Administrator provided a slide presentation showing of the conditions at the existing shelter and a copy of the 2009 study by Shelter Planners of America outlining the need for a new shelter. He outlined three options as follows:

- Construct a new shelter on property at the existing site, which will require the moving of the county garage facility;
- Construct a new shelter on county property near the existing shelter and adjacent privately owned land. The garage facility will remain; or
- Construct a new facility on another site to be determined.

The County Administrator asked for guidance from the Board on how to move forward. He stated that the County has reached a point where they can't continue in the manner they have in the past.

The Board held a lengthy discussion on the need for a new shelter, and by consensus, supported moving forward with planning for a new animal shelter. The County Administrator was asked to develop a time-line for a groundbreaking and completion of a new facility, including how to address issues with the current location. Is the existing site large enough to construct a new facility without relocating the County Garage and PSA services or is additional land needed to construct a new facility either at the existing location or new location? Board members also

asked the County Administrator to address how the County was going to pay for a new facility and possibility of fundraising.

OUT OF WORK SESSION

On a motion by Christopher A. Tuck, seconded by Mary W. Biggs and carried unanimously,

BE IT RESOLVED, The Board of Supervisors ends their Work Session to return to Regular Session.

COUNTY ADMINISTRATOR'S REPORT

The County Administrator reported on the following items:

- Surplus Property Auction was held on July 12, 2013 for Texas Hollow Park property; former Plum Creek Greenbox site; N. Franklin Street property; and Elliston-Lafayette Elementary School property, with all four properties sold bringing in \$291,000.
- Road Viewers Committee tour will be Friday, July 26, 2013 at 8:30 a.m.

BOARD MEMBERS REPORTS

Supervisor Brown reported he received several complaints about the burning of debris at the Huckleberry Ridge development construction site. Residents are complaining of ash and soot covering vehicles and homes.

Dari Jenkins, Zoning Administrator, provided information pertaining to the burning of debris at the construction site. Ms. Jenkins stated this is not a zoning issue and that the construction company has the right to burn the brush/trees from the lot. She explained that the developers are clearing off trees and brush from a significant area size for the development of Huckleberry Ridge. Ms. Jenkins reported that she along with Neal Turner, Montgomery County Emergency Services Coordinator, visited the site and found it to be a controlled burn site. This is a great example of how a control burn should be. It is a significant large scale burn; however, the developer is trying to get the entire parcel cleared, including lots for future phases, in order to avoid any future burning.

The County Administrator pointed out that the County does not have the authority to stop the construction activities as the developer is doing everything they are supposed to be doing. The Developer did contact the neighbors regarding the burning.

Board members asked if the developer was required to notify neighbors that burning will be taking place. If not, can the County mandate that the contractors provide notification for large scale burning.

The County Attorney stated that the County does not have a local burning ordinance. An ordinance can regulate the burn operation, such as notification to neighbors and Fire Marshall, requiring a permit and hours allowed to burn. He stated he will look at this issue and bring back a model ordinance for the Board to review.

County Consolidated Collection Sites Supervisor Brown also reported the Board is still receiving complaints about what type of material can be brought to the County's Consolidated Collection sites. The County has posted a list of items that cannot be dropped off at the County's Consolidated Collection Sites due to regulations by the Montgomery Regional Solid Waste Authority (MRSWA).

The Board directed staff to contact MRWSA and request a representative attend a Board of Supervisors meeting to discuss the reasons why certain items cannot be taken to the landfill.

Supervisor Biggs asked staff to address Marty Gordon's comments during public address regarding the eagle located at the old Courthouse. The County Administrator stated that the eagle does need to be refurbished and that a plan to address the refurbishment and location of the eagle needs to be developed. He has already had discussions with Bob Poff with the Montgomery Museum regarding the restoration.

Supervisor Tuck asked fellow Board members if they would support referring to the Planning Commission for review, the need to have an ordinance regarding amateur radio towers and antennas.
